AMEEN MATTAR

Senior React Native Developer | Mobile App Developer (iOS & Android)

Open to Remote | ameen_mattar@live.com | linkedin.com/in/ameen-mattar-0ba279148 | scorepad.me

PROFESSIONAL SUMMARY

Senior React Native Developer with 9+ years of experience building and shipping cross-platform mobile apps for iOS and Android. Specialized in offline-first architecture, Expo and EAS release automation, and high-performance UI with TypeScript. Shipped 10+ production apps to the App Store and Google Play for clients in Sweden, the Netherlands, Germany and Lebanon, and founded ScorePad, a live sports scoring app with subscriptions, Apple Watch and Wear OS companions. Works directly with product owners, designers and back-end teams to deliver reliable, well-tested features end to end.

TECHNICAL SKILLS

Mobile: React Native, Expo, Expo Router, EAS Build / Submit / Update, iOS (Xcode), Android (Android Studio), App Store Connect, Google Play Console

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS, PHP

Web: React.js, Next.js, Tailwind CSS, NativeWind

State & Data: Redux, MobX, Realm (offline database), AsyncStorage, REST APIs, GraphQL, Apollo Client, Axios

Back-end & Cloud: Supabase (Postgres, Edge Functions), Firebase (Auth, Storage, Analytics), Laravel

Tooling & Quality: Git, GitHub, CI/CD, EAS Workflows, Jest, React Native Testing Library, ESLint, Prettier, Sentry, PostHog

Integrations: In-app subscriptions (RevenueCat), push notifications (OneSignal), Apple HealthKit, Health Connect, camera and barcode scanning, ML Kit OCR, deep linking, i18n

PROFESSIONAL EXPERIENCE

Senior React Native Developer **May 2021 – Present**

Proxify (remote, Stockholm, Sweden)

- Lead mobile developer on **QC One Inspector** (Normec QC One), an offline-first React Native and Expo app used by quality-control inspectors on iOS and Android.
- Built and maintain the offline sync engine.
- Upgraded the app across major Expo SDK releases.
- Automated releases with EAS Workflows: staging-to-production promotion, versioned release branches and one-click rollback to the previous store version.
- Delivered features with camera, barcode scanning, ML Kit text recognition, deep links, multi-language support (i18next) and Sentry crash monitoring.
- Built React Native apps for other Proxify clients, including **RocketForm** (offline form and report management, Germany) and **Coupleness** (relationship journaling app).
- Work closely with back-end developers, QA and designers in an agile, Jira-based workflow to turn wireframes into polished, performant interfaces.

Founder & Mobile App Developer, ScorePad **2026 – Present**

Self-employed product (scorepad.me)

- Designed, built and launched ScorePad: Scoreboard & Stats, a live sports scoring and match-tracking app on the App Store, built with React Native, Expo and TypeScript.
- Built live scoring, player statistics, match history, team management, photo uploads and AI-generated match recaps.
- Developed Apple Watch and Wear OS companion apps, iOS Live Activities and Google Cast support for showing scores on a TV.
- Implemented subscription plans with RevenueCat, push notifications with OneSignal, Apple HealthKit and Health Connect integrations, and product analytics with PostHog.
- Built the back end on Supabase (Postgres, Edge Functions) and the marketing website with Next.js and Tailwind CSS; own testing, releases and store submissions.

Senior React Native Developer (Freelance) **Apr 2021 – Present**

Independent contractor (remote)

- Delivered mobile apps end to end for clients, from UI/UX planning to App Store and Google Play release, using React Native and PHP Laravel back ends.
- Built **Hello Curious**, an experience discovery platform: iOS and Android apps, a public website and a web app for experience designers.
- Coordinated small development teams, set scope and timelines with clients, and ran testing before each release.

Senior React Native Developer **Jan 2021 – May 2021**

ASAP Systems, Antelias, Lebanon

- Built pixel-perfect, smooth user interfaces for iOS and Android with React Native.
- Used native APIs for deep platform integrations and fixed performance bottlenecks to achieve native-like responsiveness.
- Worked with designers to create clean, intuitive interactions and user experiences.

React Native Developer **Oct 2017 – Jan 2021**

Bright-Lab, Zouk Mosbeh, Lebanon

- Developed and published client mobile apps with React Native, including **Mersaco** (B2B ordering and order tracking), **SSCC Kfarhbab** (school-parent communication) and **BlédiClub** (loyalty program for Blédina Lebanon).
- Built websites and admin dashboards with React.js and Next.js.
- Integrated PHP REST APIs with back-end developers and used Realm for local data storage.
- Ran QA testing to find defects and improve usability before releases; worked with senior developers on large projects for corporate clients.

Private Tutor **Sep 2014 – May 2019**

Self-employed

- Tutored students in mathematics, physics, chemistry and programming, preparing them for school, standardized and university entrance exams.

SELECTED PROJECTS

QC One Inspector (iOS, Android) – offline inspection app: App Store · Google Play
ScorePad: Scoreboard & Stats (iOS) – App Store · scorepad.me
RocketForm – rocket-es.com | **Coupleness** – App Store | **Mersaco** – App Store

EDUCATION

Bachelor of Science in Computer Science **2017**

Lebanese University

CERTIFICATIONS

Cisco CCNA 1 (2016) | Cisco CCNA 2 (2017)

LANGUAGES

Arabic (Native) | English (Professional working proficiency)
